## 富顺县食品饮料产业园项目

总投资额  
¥ **60** 亿元

联系电话：杨宿澈 18483650352

项目规划占地面积4380亩，分为产业建设及园外建设，产业建设内容包括白酒生产、啤酒生产、饮料生产及食品加工等加工基地建设；园外建设内容包括园区周边水电气路等配套基础设施。项目建设周期2年，拟引进优质企业，扩大销售渠道，同时带动周边食品、包装、印刷、广告、运输等关联产业发展。

## 无人机零部件制造产业基地项目

总投资额  
¥ **20** 亿元

联系电话：刘俊波 13990002719

项目规划用地约800亩，建设周期5年，在自贡航空产业园区主要引进无人机机体零部件、发动机零部件、电子设备零部件、机载设备零部件等相关产业的制造企业，形成无人机零配件制造的全产业链集群，将该基地打造成为全国一流的无人机零部件产业集聚区。

## Electronic Information Industrial Park

Total investment  
¥ **6** Billion

Contact: Li Zhou 13990061787

The total planning area is about 500 mu. The project will build about 1 million square meters of standardized workshop, public service platform, canteen, talent apartment, administrative office, entertainment and other comprehensive supporting service facilities. The total planned investment is about RMB 6 billion. Led by "One Core and One Screen", it will build an RMB-50-billion level electronic information industry cluster, focusing on the introduction of industrial projects such as intelligent terminals, photoelectric displays, integrated circuits and electronic components. The estimated construction period is 36 months.

## Fushun County Food and Beverage Industrial Park Project

Total investment  
¥ **6** Billion

Contact: Yang Sulian 18483650352

It is planned to cover an area of 4380 mu. The project is divided into industrial construction and construction outside the park. Industrial construction includes the construction of processing bases for Baijiu production, beer production, beverage production and food processing. The construction outside the park includes supporting infrastructure such as water, electricity and roads around the park. The construction period of the project is 2 years. It is planned to introduce high-quality enterprises, expand sales channels, and drive the development of food, packaging, printing, advertising, transportation and other related industries in surrounding areas.

## Chlor-alkali and Methane Chloride Production Project

Total investment  
¥ **2** Billion

Contact: Lin Jie 13350671978

The planned land area of the project is about 600 mu and the construction period is 2 years. Relying on Zigong's rich salt brine resources, enterprises are introduced to build a production line with an annual output of 300,000 tons of caustic soda and 200,000 tons of methane chloride. The completion of the project will promote the transformation and development of Zigong salt chemical industry, boost the transformation and upgrading of Zigong as an old industrial city, and lay an industrial foundation for the integrated development of Zigong's upstream and downstream fluorine chemical industry chain.

## 氯碱及甲烷氯化物生产项目

总投资额  
¥ **20** 亿元

联系电话：林杰 13350671978

项目规划用地约600亩，建设周期2年，依托自贡丰富的盐卤资源，引进企业建设年产30万吨烧碱和年产20万吨甲烷氯化物生产线，项目全部建成可推动自贡盐化工产业转型发展，助推自贡老工业城市转型升级，为自贡氟化工产业链上下游一体化发展打下产业基础。

## 钒储能电池生产项目

总投资额  
¥ **10** 亿元

联系电话：郑倪 15808128887

项目拟建设20万套/年钒电池生产线,占地约100亩。位于白马工业园区内,可实现项目的快捷落地。米易县新材料孵化中心将主要用于钒储能材料及电池的研发、测试,攀西地区光热、风力资源丰富,米易县所属企业攀枝花兴辰钒钛有限公司可以与其合作提供技术和原材料支撑。

## 盐边县桑葚基地建设项目

总投资额  
¥ **5** 亿元

联系电话：李菊 15281201547

该项目占地200亩,建设周期为1年,主要建设年产5万吨桑葚原浆深加工生产线,年产5000吨花青素(桑果、桑叶)提取生产线,年产2万吨果酒生产线及果干、冷冻、仓储物流等配套设施,项目将采取“公司+合作社+农户”的合作模式。

## Vanadium and Titanium Resource Comprehensive Utilization Project (Fubon Reorganization Project)

Total investment  
¥ **5** Billion

Contact: Si Jiaxun 13882387311

The planned land area of the project is about 2,200 mu (Fubon has built more than 1,000 mu). The investor invests in Fubon bankruptcy reorganization project, and improves the relevant industrial chain of subsequent extension and deep processing of vanadium, titanium and steel. The project will integrate upstream and downstream industrial resources, build a vanadium titanium brake drum production base, develop high-end vanadium titanium materials, comprehensively utilize circular economy, and increase investment in technological transformation to speed up industrial upgrading.

## Vanadium Energy Storage Battery Production Project

Total investment  
¥ **1** Billion

Contact: Zheng Ni 15808128887

The project plans to build a vanadium battery production line with an annual output of 200,000 sets, covering an area of about 100 mu. Located in Baima Industrial Park, the project can be quickly implemented. Mi Yi County New Material Incubation Center will be mainly used for the R&D and final test of vanadium energy storage materials and batteries; Panxi Area is rich in solar thermal and wind resources. Panzhihua Xingchen Vanadium Titanium Co., Ltd., an enterprise affiliated to Mi Yi County, can cooperate with it to provide technical and raw material support.

## Mulberry Base Construction Project in Yanbian County

Total investment  
¥ **0.5** Billion

Contact: Li Ju 15281201547

The project covers an area of 200 mu and the construction period is one year. It mainly constructs a deep processing production line with an annual output of 50,000 tons of mulberry pulp, a production line with an annual output of 5,000 tons of anthocyanins (mulberry fruits and mulberry leaves), a production line with an annual output of 20,000 tons of fruit wine, and supporting facilities such as fruit drying, freezing, warehousing and logistics. The project will adopt the cooperation mode of "company + cooperative + farmers".
